During the fiscal year under review, the Japanese economy saw increases in capital investment against a backdrop of strong corporate results, and further improvements in income and employment conditions, but factors such as the impact of the slowdown in the Chinese economy, trade friction between the US and China, and the departure of the UK from the EU have led to a rising sense of uncertainty.

In the retail industry the business environment has been made more challenging by such factors as increasingly intense sales competition that transcends conventional boundaries of business sectors and formats, the impact of inclement weather and natural disasters that have occurred across the country, and rising expenses, particularly personnel expenses.

Operating under these circumstances, the Group's operating results by business in the fiscal year under review were as follows.

## Home Center business

The Group is aiming to achieve a store model that makes customers feel that it is an essential part of their lives, under the catchphrase of "For this and that, it has to be Komeri," and focused on renovating existing outlets in Power stores (PW stores), Home Center stores (HC stores), and Hard \& Green stores (HG stores)

In the fiscal year under review, we renovated 18 PW stores, 18 HC stores, and 135 HG stores for a total of 171 renovations, and worked to revitalize sales floors. After renovation, strong sales were recorded, mainly in construction-related areas such as "Tools, hardware and work-related products."

In addition, the optimization of inventory on which we have been working continuously across the Company as a whole has been bearing fruit, for example in the form of enhanced precision in the order placement system. Inventory at existing stores at the end of the fiscal year under review fell $3.4 \%$ year on year, marking the third consecutive year of improvements.

In terms of profits, by introducing newly developed products, promoting everyday low price (EDLP) measures, and pursuing even lower cost operations through the implementation of business process re-engineering (BPR), we achieved increases in gross profit and operating profit.

The number of cardholders of the cards that consolidated subsidiary KOMERI CAPITAL Co., Ltd. independently issues such as KOMERI Card (credit card) and AQUA Card (prepaid card) has been steadily increasing, surpassing $3,300,000$ members during the fiscal year under review. These cards enable us to
identify our customers' product needs in a timely manner utilizing big data. Also, by means of an FSP program in which benefits increase along with the frequency of usage, we are making progress in creating repeat customers.

## Stores

With regard to store openings, a total of nine new PW stores were opened in Hokkaido, Tochigi, Chiba, Shizuoka, Aichi, Shiga, and Fukuoka Prefectures. In addition, two HC stores in Yamagata and Mie Prefectures were converted to the PW format. This brought the total number of PW stores in Hokkaido and 28 other prefectures to 64 . Three HG stores were opened, and we implemented scrap and build to convert four stores to the HC format.

There were a total of 12 closures: three HC stores (including conversions to different formats), eight HG stores (including conversions to different formats) and one Athena ("AT") store.

As a result, the number of stores at the end of the fiscal year under review stood at 1,192 stores, consisting of 64 PW stores, 164 HC stores, 956 HG stores, and 8 AT stores.

With respect to our outlook for the year ending March 31, 2020, we anticipate continued instability in the global economy, driven by the slowing of the Chinese economy and the exit of the UK from the EU. As for the domestic economy, an increase in consumption tax is scheduled for October 2019, and we expect this to lead to uncertainty with regard to the trend for business conditions and personal consumption.

The business environment for the home center industry is expected to remain difficult due to Internet shopping, competition from other industries such as drugstores, etc., and deteriorating profitability as a result of rising expenses, primarily personnel expenses, amongst other factors.

Facing these circumstances, the Group will make efforts to further strengthen global sourcing and selling power, with the customer-first spirit, which means to provide customers with better products at lower prices.

As a major policy measure, the Group will fortify its existing area of operations, and push ahead with renovations of existing stores. We will work on the horizontal roll-out of model stores, and optimize store formats by use of scrap and build. With regard to products, we will focus our efforts on the further promotion of EDLP measures and on the development of new products that win the support of customers. In addition, in the field of agricultural products, we are striving to build a structure that will allow us to address larger farms.

Taking the above-mentioned circumstances into consideration, for the year ending March 31, 2020, on a consolidated basis, the Group expects operating revenue to rise $3.2 \%$ year on year to 358,000 million yen, operating profit to rise $10.4 \%$ to 20,000 million yen, ordinary profit to rise $9.7 \%$ to 20,000 million yen and profit attributable to owners of the parent to rise $7.0 \%$ to 11,700 million yen.

1) Assets, liabilities and net assets

Total assets at the end of the fiscal year under review increased by 6,753 million yen from the previous fiscal year-end to 326,435 million yen. This was mainly due to increases in property, plant and equipment of 5,655 million yen and merchandise inventories of 1,863 million yen.

Liabilities decreased by 2,256 million yen from the previous fiscal year-end to 152,466 million yen. This was mainly due to a decrease in long-term debt including current portion of 12,169 million yen, although there was an increase in short-term bank loans of 9,800 million yen.

Net assets increased by 9,010 million yen from the previous fiscal year-end to 173,968 million yen. This was mainly due to an increase in retained earnings.

Trends in cash flow indices

|  | Year ended March <br> 31,2017 | Year ended March <br> 31,2018 | Year ended March <br> 31,2019 |
| :--- | ---: | ---: | ---: |

| Years of debt redemption (years) | 2.4 | 2.8 | 2.5 |
| Interest coverage ratio (times) | 81.7 | 82.7 | 108.0 |

(Notes) 1. The calculation formulas are as follows:
Equity ratio: shareholders' equity/total assets
Equity ratio based on market prices: market capitalization/total assets
Years of debt redemption: interest-bearing liabilities/operating cash flow
Interest coverage ratio: operating cash flow/interest payments
2. Each of the foregoing indices is calculated on the basis of consolidated financial data.
3. "Market capitalization" is calculated by multiplying the share price on the final day of the fiscal year by the number of issued shares on the same day (excluding treasury stock).
4. For "operating cash flow," we use the figure of "net cash provided by operating activities" in the consolidated statement of cash flows.
5. "Interest-bearing liabilities" refers to all liabilities on the consolidated balance sheet on which interest payments are made. For "interest payments," we use the figure of "interest expense" in the consolidated statement of cash flows.
(3) Basic policy on distribution of profits and dividends for the fiscal year under review and the next fiscal year
The Group places the highest priority on increasing returns to shareholders by constantly raising its corporate value. In distributing profits, we are working to continuously provide stable dividends while strengthening the Group's operating base and financial structure.

Internal reserves will be used for investments in growth to further strengthen the Group's operating base, such as new store openings, renovation of existing stores, and system development, and thereby we enhance our corporate value.

To show our gratitude to our shareholders, we will pay a year-end dividend of 20 yen per share, as announced on April 27, 2018. As a result, the annual dividend will be 40 yen per share including an interim dividend of 20 yen per share.

For the next fiscal year, we plan to pay an annual dividend of 42 yen per share, consisting of an interim dividend of 21 yen per share and a year-end dividend of 21 yen per share.
(4) Business and other risks

The business risks faced by the Group have not changed materially since they were listed in the securities report that was filed on June 22, 2018, and so they have been omitted here.

## 2. Management policy

(1) Fundamental management policy

The Group's philosophy is based on the concept that "A company should serve the purpose of making people happy, and by making people happy, it will be supported by society, and thus remain a going concern." This has not changed since the Company was founded.

Based on the above management philosophy, the Group leverages its strengths in business areas normally handled by home centers such as those involving building materials, hardware and agricultural materials, and is also working to modernize obsolete distribution systems in such areas of business.
(2) Target management indices

The Group is targeting the goals of achieving " $33.3 \%$ labor's share, $10 \% \mathrm{ROA}$, and $10 \%$ ROE" and is striving to increase productivity of both our people and our capital.

As of the end of the fiscal year under review, ROA and ROE stood at $5.6 \%$ and $6.5 \%$, respectively.
(3) The medium-to-long-term management strategy

The environment in which the Group operates is forecast to become increasingly difficult, characterized by extraordinarily rapid changes in the market, declines in market size caused by the shrinking population, and intensifying sales competition that transcends the conventional boundaries of business sectors and formats.

Facing such circumstances, the Group will concentrate on "home" and "agriculture," offering products and services that match customer lifestyles, with the aim of becoming an home improvement company regarded as indispensable to regional Japan.
3. Basic rationale for selecting the accounting standard

As the Company is currently engaged in business within Japan, among other reasons, the Company's policy in the immediate term is to prepare its consolidated financial statements on the basis of Japanese GAAP.

The Company intends to examine the application of International Financial Reporting Standards (IFRS) in consideration of such factors as future business development and trends inside and outside Japan.
